♦ Introduction ♦

Once upon a Tarot time, in a land full of rainbows and gemstones, hidden from the naked eye in a magical forest, lived a band of Crystal Unicorns.

The only way to see and connect with these magical creatures is with your intuition and awareness. As you start connecting, you will hear the faint sound of hooves tapping along the lush, green floor of the forest. Keep your focus and you might be lucky enough to catch a glimpse of a sparkle from their enchanted crystal horns. As if hearing your inner questions the Unicorns look up in unison. To hear their answer all you need to is take this deck of cards and turn one over.

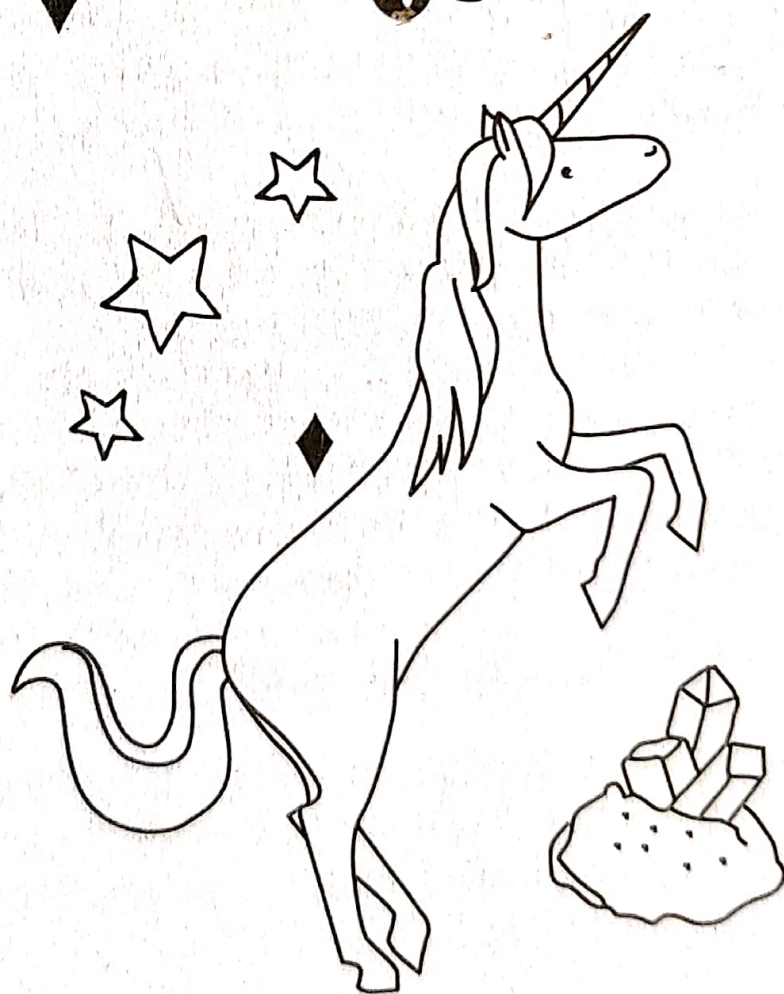

See what wisdom and guidance the rainbow brings you from the forest of the Crystal Unicorns.

WHAT IS TAROT?

Tarot are mystical playing cards which have been used as a divination tool for centuries. The Tarot can help you tap into your intuition as well as guide you to make clearer decisions in life, love, career, health, and family. Think of the tarot as a mirror, reflecting your life. The cards invite you to listen to their story and join them on a magical adventure of what could happen if you follow their guidance.

The 78 cards of the Tarot consist of the Major Arcana (22) and the Minor Arcana (56). All the Major and Minor Arcana names are traditional in this deck and have not been changed.

Crystal and Unicorn

Crystals and Unicorns go together like peanut butter and jelly. So different, yet complimenting each other creating a delicious result. Unicorns are my number one go to mystical creature for healing because of their pure cleansing energy. I love Unicorns sooo much, I even wrote a book about it.

(You can find my book on amazon with this link: tinyurl.com/magicalpamela).

Crystals are essential magical tools in my daily life. I use crystal energy for practically everything, from drinking crystal healing water to attracting prosperity with crystals, it's everywhere in my house and in my bra 24/7. Asking Unicorns for guidance is like standing under a golden rainbow sprinkled with crystal sparkles. Reading with the Unicorns will be like a reading you will never experience again.

My hope is for your reading to be easy, intuitive, guided, and most of all enjoyable. This magical deck is here to help you connect to your subconscious mind and tap into your intuition. You can use these cards for personal readings or with friends. Connect, shuffle, and deal out the cards and watch your story unfold and discover the answers to your burning questions.

HOW TO USE THE CARDS

The Crystal Unicorn Tarot Deck is based on the traditional Rider-Waite Tarot, just with added elements of Unicorns and Crystals.

I will not be including fully detailed reversal meanings, but I really encourage you to refer to any book written with the Rider-Waite system in mind for further card meanings. Magic is about knowledge.

Each Major Arcana card is aligned to its own mystical magical crystal and each of the suits have their own crystal as well. So if you want to explore and dive deeper with your reading, you can find the crystals in the card during your reading and connect with it's energy! All crystals have different meanings so this adds another sparkling layer to your daily draw or spread.

PREPARING YOUR CARDS

When you first receive your cards or before you begin a reading, put them on your altar or sacred space with a clear quartz on top to clear any negative energy and to harmonize your deck.

If you are a beginner/novice, go through the deck and stare at each card. Get familiar with the individual cards and make them your BFFs before you start reading with them.

To begin a reading hold your cards in both hands over your heart, then imagine a golden light coming out from your heart and enveloping your cards, connecting you to them and cleansing them. You can also sage them before or after a reading.

After connecting to your cards, start your shuffle. As you shuffle ask your question. I like to shuffle the cards until cards naturally fall out by themselves. Or you can shuffle them 11 times.

Whatever you feel is right, you can develop your own ritual.

Here's a tip: just do a basic shuffle, try not to bend your cards.

When you are ready, flip your cards for your reading. You can follow a specific Tarot spread, like the two magical spreads in the back of this guidebook or make up your own!

Read your Tarot cards in the order that they have been pulled. Pay attention to the pictures and symbols and anything that stands out

You may first use your intuition to decipher the cards as well as using this guidebook as a reference.

Tarot tip: read the cards as if they are telling you a story. What story are they trying to tell you?

When you are finished with your reading store your cards away in the box they came in, special tarot bag, or with a dark cloth to repel negative energies. Treat your deck with respect and care. Put it back on your altar with the clear quartz to charge or where ever you feel is magical.
